

Change is needed to improve retention, services and access to primary care dietitians in Ontario

Since 2006, dietitians have mistakenly been paid less than other primary health care professionals...

...despite having similar

- ✓ **Education**
- ✓ **Training**
- ✓ **Responsibilities**

of primary care dietitians have been in their position less than 5 years

of primary care dietitians are considering leaving their current position within the next 2 years

STOP THE REVOLVING DOOR

This is not a raise. Correct wage disparity for dietitians in primary care!
